PROJECTS

ONLINE TRAVEL AGENCY (OTA)

FEBRUARY 2021

In 3rd semester, me and my friend developed a project based on Web Designing. We have developed a website for travel agency through which you can easy search places and book hotels, trains and flight tickets. For booking and searching places we have provided a navigation link in code as we are not expert in that fields but we have setup a login and sign up system which stores the user data in MySQL and using PHP. We have created the front-end and back-end by our self.
